

Internship and Research Experiences for Undergrads

Look at [the computer science web page](#) on internship and REU and put down the items required by Tasks 1~3 in the following.

- **Task#1:** Examine some of the computer science REU programs shown in [1](#) and [2](#). **Please identify at least one REU program that seems interesting to you. Put them down in your report.**
- **Task#2:** Browse some of the internship programs shown in
 - [LifeRay Software](#),
 - [Logos Bible Software](#),
 - [Google](#),
 - [Microsoft](#), and
 - [Intel](#).

Please identify at least one internship program that seems interesting to you. Put them down in your report.

- **Task#3:** **Put down a summary of at least 300 words** about what you have learned from the **panel discussion regarding** (i) the process of search, application, and interview and (ii) the attitudes and technical skills needed for the internship.
