

Preparations for Career Development: LinkedIn, REU, and Internship

Look at [the computer science web page](#) on internship and REU and put down the items required by Tasks 1~3 in the following.

- **Task#1 (LinkedIn):** Create a LinkedIn account and explore and the possibility of networking and information gathering for internships and jobs. **Put down your thoughts about your LinkedIn explorations in your report.**

- **Task#2 (REU):** Examine some of the computer science REU programs shown in [1](#) and [2](#). Please identify at least one REU program that seems interesting to you. **Put them down in your report.**

- **Task#3 (Internships and Jobs):** Browse some of the internship programs shown in
 - Biola [Handshake](#)
 - [LifeRay Software](#),
 - [Logos Bible Software](#),
 - [Google](#),
 - [Microsoft](#), and
 - [Intel](#).

Please identify at least one internship program that seems interesting to you. **Put them down in your report.**

- **Submission: Put down a report of at least 300 words** regarding your thoughts and findings from the three tasks above.
